

Zimmerman, Dr Dale 1011 West Florence Street, Silver City, New Mexico 88061, U.S.A. see Turner, Don a).

Names, addresses and project details are presented above as accurately as the information available allowed. Will people please contact the compiler at the editorial address with additions and corrections for the list. We hope that the resurrection of this feature in the annual report will help both to illustrate the extent of ornithological work under way in East Africa and allow researchers to be in touch with one another more easily.—*John Fanshawe, compiler*

## References to East African birds published between 1977 and 1990

*Scopus* references excluded

### 1977
